Training Opportunity: Horticulture and Crop Husbandry Level 2

Desert Academy Maltahöhe - a private sector driven not-for-gain Vocational Training provider and offspring of Wolwedans Desert Academy – is now open for applications from the Hardap region and beyond.

Initiated and driven by the Wolwedans Foundation and co-funded by private and public donors - Desert Academy offers NTA registered and NQA accredited training programs for Horticulture & Crop Husbandry and Hospitality & Tourism.

We are now recruiting to enroll suited and talented young Namibians for the first Horticulture & Crop Husbandry Level 2 intake, commencing in February 2026 with assessment in December.

After successful completion of Level 2, qualifying and selected candidates will have the opportunity to further their studies in Level 3 under the WIL (work-integrated-learning) apprenticeship program with 18 month on-the-job placements facilitated by Desert Academy with private partners.

For more information on courses, admission and the application process please visit our webpage www.desert-academy.org

This training opportunity by the Wolwedans Foundation is match-funded by DEG Impulse from public funds of the German Federal Ministry of Economic Cooperation and Development.
